

Be There Now.

MeetingMatrix® 3D-VR Explorer™

A picture may be worth a thousand words, but to have the power to make that picture come alive is priceless. Static photos and virtual tours may give a potential customer an idea of what your venue has to offer, but they still do not show your customer what their specific event setup will look like from the attendee's point of view. Now, with the MeetingMatrix 3D-VR Explorer, you can!

The MeetingMatrix 3D-VR Explorer allows you to view a fully interactive 3D model of any MeetingMatrix® Setup Diagram. The level of detail shown depends on the type of 3D rendering you invest in.

A setup in a room may appear completely feasible in 2-D, but when you actually step into the set space, even the slightest oversight becomes glaringly apparent. Embedded in your website, the 3D-VR Explorer allows visitors to view their desired setup in 3D Virtual Reality. They can easily duplicate the experience of their event guests, from those sitting in the back row to the keynote speaker addressing the audience from the podium.

MeetingMatrix®
INTERNATIONAL

Viewing the set room in a virtual setting will lend to the meeting planner's comfort and assurance that your facility offers exactly what they need for a successful event. Any doubts regarding max sets are laid to rest once the planner tours a set meeting room in 3D-VR.

Upgrading your basic 3D-VR rendering to Space Rendering™ by MeetingMatrix® will further broaden your appeal and put your venue on the cutting edge of event space marketing technology. When your event space has Space Rendering, every detail is modeled and represented exactly to scale.

- Embedded in your website; offered free of charge to visitors
- Increase the effectiveness of electronic marketing campaigns by providing direct links to your free planning tools
- Expand the draw to your website by interfacing the 3D-VR Explorer™ with other powerful marketing tools: PlanView.NET™, ActiveMatrix.NET™ and CapacityMatrix.NET™
- Set yourself apart and increase sales by making the event planning process at your venue more attractive and cutting edge.
- Further enhance the online appeal of your meeting space with the purchase of our Space Rendering services; showcase your Ballroom in all its grandeur
