

Your Capacity Charts, MeetingMatrix Room Diagrams™ or Certified Room Diagrams® and associated Setup Diagrams™ — **all available at the click of a mouse!**

Take your charts to new levels with CapacityMatrix.NET™

Do you feel your standard capacity charts just aren't quite enough? Then separate yourself from the ordinary static charts that only provide basic information, and take your charts to unprecedented heights with CapacityMatrix.NET. Don't rely on inaccurate and rough sketches when you can have an online product that allows website visitors to view your property's highly intuitive and interactive capacity charts, with immediate access to associated setup diagrams.

CapacityMatrix.NET uses your facility's MeetingMatrix Room Diagrams™, or Certified Room Diagrams®, to create flash based capacity charts that house all of your property's information with sample setup diagrams for all of your meeting spaces.

You will receive a 90-day MeetingMatrix® 2007: Platinum+ Edition to create and edit all of your setup diagrams, thus allowing you to dictate all of your preferences while ensuring an accurate and professional representation.

The stepping stone towards ActiveMatrix.NET, an easy and affordable upgrade

A multi-lingual interface is available in English, German, French, Italian, Spanish, Japanese, Korean and Chinese

Once you are satisfied with all your diagrams, they will be available for download through our MeetingMatrix Customer Center where your customized Capacity Charts will be generated using your own setup diagrams. From there all your charts and diagrams will be incorporated into your CapacityMatrix.NET application.

With CapacityMatrix.NET you are not only acquiring highly intuitive and interactive capacity charts, but you are able to showcase this information directly online. Your capacity details, meeting room schematics, and recommended setups are always available anytime at the click of a mouse. The information your planners want and need, and the sales tools that will drive your business, is now obtainable. What are you waiting for? Its time to act now!

The screenshot displays two examples of the software's output. The top example is for 'Galleria Hall', showing a floor plan and a table with columns: Room Name, Dimensions, Area, Max Ceiling Height, and various seating configurations (e.g., 475 x 400, 521 x 400, 521 x 300, etc.). The bottom example is for 'Gramercy', showing a similar floor plan and table with columns: Room Name, Dimensions, Area, Max Ceiling Height, and various seating configurations (e.g., 475 x 400, 521 x 400, 521 x 300, etc.).
