

Complete Your Meeting and Event Space Marketing Program

MeetingMatrix® PaperView™

MeetingMatrix PaperView completes your marketing program by providing an additional level of exposure for your property's MeetingMatrix Certified Room Diagrams® and accompanying Floor Level Illustrations. MeetingMatrix PaperView is designed to be downloaded from your website as a PDF, as well as, camera ready artwork for full color offset printing. MeetingMatrix PaperView is the perfect accompaniment to the range of already successful marketing solutions available from MeetingMatrix. Best yet, capacity charts are included with each corresponding Floor Level Illustration and Certified Room Diagram.

We begin with the existing electronic data associated with your Certified Room Diagrams and Floor Level Illustrations and modify this data to reflect the high resolution standards of 300dpi offset printing. Utilizing your corporate branding guidelines, we layout each page with the meeting space(s) selected along with the associated room capacities. From here, we prepare these pages for press and compile all of your meeting space into a multi-page diagram booklet (in PDF format).
