SiteVisit®: Broadcast Globally, Profit Locally

A SiteVisit listing is the ideal means of exposing your facility, destination, or venue to a global audience. With in-depth venue information, give planners what they want, when they want it. And best of all, the content is completely under your control. SiteVisit is a revolutionary search engine that offers an advanced content management and delivery solution for the global hospitality, travel, destination and meetings industry.

It allows you to not only market your facility to a global audience, but also showcase exactly what your property has to offer. Broadcast all of your amenities including meeting rooms, dining facilities, and even the weather instantly online. Relay the exact marketing message you want to reach your audience, and change it on the fly, as you see fit.

MeetingMatrix®
INTERNATIONAL

SiteVisit is connected to five web portals, instantly marketing your facility to a global audience. These web portals include: www.Sitevisit.com, www.MeetingMatrix.com, www.BusinessMeetings.com, www.TravelMole.com, and www.TravelDailyNews.com. SiteVisit is an extensive SQL database containing an astounding 750 unique fields of in-depth hotel information, a secure online content and image management system with real-time output, and a common interface providing travel related software companies with a centralized integration point.

What SiteVisit provides planners?

- A search engine of real-time data and image content for more than 85,500 venues.
- Ability to submit meeting RFPs directly to the venue of choice.
- User Center with a personal profile, ability to save searches, create bookmarks, and a "My RFPs" section.
- User specific locale information that determines currency, numerical format, date, time and calendar settings. From apartment properties to wineries, resorts to museums, hotels to restaurants, bed & breakfasts to cruise ships, if you want to showcase it, SiteVisit is your answer.
- Provide planners with all the information they need, right at their fingertips.
- Venues retain complete control of the content of their SiteVisit listing, with edits and updates appearing in real time.
- Market a specific niche within a focused list of members.
- Immediate RFP functionality with locale preferences offering real-time currency conversion.
- Over 750 fields of unique venue information, covering myriad areas of interest.

What a host can expect from SiteVisit:

- The ability to display a subset of the 85,500 venues currently listed in 3 distinct data levels including Classic, Premier, and Ultimate listings.
- Seamless integration of the host's branding within SiteVisit.
- The ability to match the host's business model and logic.
- Extensive market analysis reporting and tracking.
- Meridian geographic validation and geo-coding to the building level.

What a venue can expect from SiteVisit:

- Control the content, marketing look and feel, and instantly make changes.
- Real-time content management within the entire SiteVisit Network for over 750 unique data fields.
- Dynamic and user friendly digital image management with automatic image file conversion, scaling, cropping and shadowing.
- A meetings RFP system with integrated quick and detailed RFP options.
- A hotel RFP response system allowing for easy management of incoming RFP's.

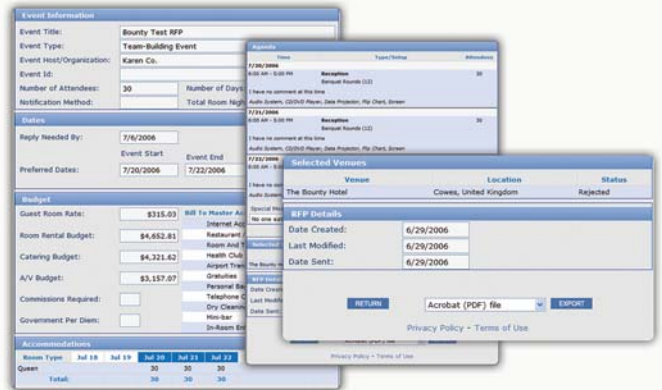

For destinations or those marketing a specific chain or group of venues, embedding the SiteVisit search engine within your website couldn't be easier. With a customized venue "member list" to narrow the focus of the search to fit your criteria, your sales are sure to increase.

SiteVisit® is a technology partner of the APEX Industry Standards Program, which is sponsored by the Convention Industry Council and the OTA. SiteVisit has been developed as a comprehensive, globally-focused venue content solution with the capability to effortlessly integrate fully customized web resources into an existing website within a very short span of time. SiteVisit meets today's online data and image distribution demands. More importantly, SiteVisit provides the venue information depth and standards needed to provide the best possible caliber of searchable detailed information for the benefit of both venues and planners alike.

SiteVisit's proprietary software application is an ideal technology platform to easily create cooperative industry-centric working partnerships with other technology providers.

Get maximum attention with SiteVisit and feed a global audience with in-depth information about your venues.
